

VOLUME XL.

JANESVILLE, WISCONSIN. WEDNESDAY, DECEMBER 30 1896

NUMBER

TWENTY-SEVEN DIE AT BIRMINGHAM

VICTIMS OF THE RAILROAD WRECK BURIED.

Definite Figures Have Now Been
Secured and Places the Death Roll
At Nearly Thirty—Reward Is
Offered For the Capture of the
Wreckers.

Birmingham, Ala., Dec. 30.—The
funeral of Engineer Frank White, who
went through the Cahaba river bridge
on the Birmingham mineral train Sunday
morning, in which wreck twenty-
seven persons lost their lives, took
place Tuesday, as did also the funerals
of Mrs. Gleadall of Helena, Mrs. Henry
Hanbury and two children, the Rev.
R. H. Blount, colored, and W. Webb.

Superintendent Fraser of the South-
ern railroad said that his company will
offer a large reward for the capture and
conviction of the person or persons who
tampered with the rails on the bridge.
The state will probably add to any re-
ward offered by the Southern and the
Louisville & Nashville roads, and the
Southern express company may do like-
wise. Men began work yesterday re-
placing the bridge, and forty days will
probably elapse before the track will
be put in condition for regular traffic
again. There are some victims of the
accident yet missing. The railroad
company gave the list of dead as twenty-
three, but cannot account for those
missing. A newspaper correspondent
ascertained that thirty-eight persons
were aboard the train. Eleven of this
number are alive. It is thought Andrew
Bryson cannot live.

Indiana Teachers' Meeting.

Indianapolis, Dec. 30.—The initial
session of the State Teachers' associa-
tion was held Tuesday night. The Indiana
Library association, the Indiana
College association, the county superin-
tendents and the high school and other
sections tributary to the State Teach-
ers' association, were also in session.
The college association accomplished
little beyond discussing the Bible in
college work, in which no conclusions
were reached. The county superin-
tendents devoted their attention to topics
pertinent to legislative action.

Currency Reformers at Work.

Indianapolis, Ind., Dec. 30.—A con-
siderable list of delegates to the mon-
etary reform convention was reported
Tuesday. The executive committee is
beginning to discuss the details of the
convention. It is likely that the tem-
porary chairman will be selected from
the east and an effort will be made to
have a western man made permanent
chairman. The names of William E.
Dodge and Seth Low of New York are
mentioned as good timber for the tem-
porary chairmanship.

Germany Short of Farm Labor.

London, Dec. 30.—A Berlin dispatch
to the Standard says that Chancellor
von Hohenlohe will submit to the
Bundesrat a bill which is intended to
restrict immigration from the agricultural
districts of Germany. The exodus
from certain agricultural districts of
Germany to the cities and abroad has
been so large that the landowners have
been complaining greatly of the scarcity
of labor.

Illinois Miners Ask for Aid.

Joliet, Ill., Dec. 30.—A committee of
three miners from Coal City are in this
city soliciting aid for the miners of
Carbon Hill and Coal City, who have
been locked out by the Star Coal Com-
pany putting in two-inch screens, that
will be equal to a 25 per cent a ton, or
50 to 60 cents a day, reduction. This
lockout leaves over 200 families on the
verge of starvation.

In Favor of Nature Studies.

Des Moines, Iowa, Dec. 30.—The edu-
cational council of the State Teachers'
association decided very emphatically
in favor of nature studies in the grades
below the high school. A new consti-
tution is to be presented for adoption
today. It proposes an elaborate scheme
of making county associations a part
of the state association, and other radical
changes, which will be vigorously
opposed.

Indiana Dairymen in Session.

Lebanon, Ind., Dec. 30.—The annual
state convention of the Indiana Dairy
association opened in this city Tuesday
morning. A decided effort is being
made to secure the endorsement of Gov.
Hoard of Wisconsin for a cabinet position,
and the chances are decidedly fa-
vorable for a resolution of that char-
acter being adopted.

Minneapolis Bank Falls.

Minneapolis, Dec. 30.—The Columbia
National Bank, a small institution of
comparatively recent establishment,
with \$200,000 capital, closed its doors
Tuesday and is now in the hands of
the bank examiner.

Kansas County Is Insolvent.

Dighton, Kas., Dec. 30.—The board
of county commissioners of Lane county
has formally declared the county
insolvent and issued instructions to the
county treasurer to refrain from fur-
ther payment of interest on the county's
bonded indebtedness. The funded
debt of the county is \$125,000.

POPE LEO RAPIDLY FAILING.

Private Letter Says the Pontiff Is Near
to Death.

Portland, Maine, Dec. 30.—Pope Leo
is near to death, so near, according to
a private letter, that he realizes the end
is not far off, and the question of his
successor is occupying much attention.

The Portland Argus publishes the
following: "The Argus is in receipt of
information, coming from Rome in a
private letter to a member of the staff,
that the physical condition of His Holiness
Pope Leo XIII. is such as to cause
the gravest concern to those about him.

The writer of the letter, who is in a
position to know whereof he speaks,
says that the pontiff's appearance is
such as to make a person think he was
looking at a corpse until the pope
spoke. His voice is weak and his frame
greatly emaciated. His mind, however,
is perfectly clear. It is understood that
the pope himself and those closest to
him feel that the end is a matter of
only a very short time."

Coasters Strike an Engine.

Ann Arbor, Mich., Dec. 30.—A coast-
ing party on a bobbed had a narrow
escape from instant death Monday
night. The Madison street hill was icy
and the bobs slid in grooves worn three
inches deep. It was impossible to
change the course of the bobs after
they were once in motion. One of the
party saw a yard locomotive back down
and shouted, but could do nothing to
save himself. The engine struck the
rear end of the bob, throwing all the
riders off. All were more or less
bruised, but Miss Mary Kearney and
Mr. Burlingame were the worst injured.
They may recover, but it is doubtful.
The others were only slightly injured.

Ohio Miners Name Terms.

Columbus, Ohio, Dec. 30.—The Ohio
miners' state convention adopted reso-
lutions as follows: "That machine
shall be three-fifths of pick mining, pro-
vided western Pennsylvania consents;
that union men shall be employed in
turn, provided it is not illegal; that
non-union men in union mines shall be
'checked off' to pay expenses of the
miners' organization, same as union
men; that the mining rates be revised,
and that no scale for this year be
signed by the organization." The Ohio
miners favor a joint board of operators
and miners, to have full and absolute
control of the scale question.

Window-Glass Men All Agree.

Chicago, Dec. 30.—Window glass
manufacturers and jobbers met at the
Auditorium Annex yesterday. The
manufacturers practically conceded the
jobbers' demands. The rebate system
as agreed upon secures for every pur-
chaser who buys \$8,000 worth of glass
in six months a rebate of 2½ per cent,
and to those buying \$25,000 worth in
six months a rebate of 5 per cent. By
this system the long and short buyers
alike are protected, and an equitable
adjustment of rebates is provided for,
so that both the small and large dealers
alike are provided for.

McCollom Under Heavy Guard.

Port Huron, Mich., Dec. 30.—No at-
tempt has yet been made to lynch Mc-
Collom, the man who brutally beat his
aged mother, but there is no telling
what time the mob of farmers around
Kimball township will come in and
batter down the doors of the jail and
hang the prisoner. Sheriff Mallory has
sworn in twelve extra deputy sheriffs
and Chief Pettit has ordered six of his
officers to assist Sheriff Mallory.

Vigorous Attack on College Sports.

Lansing, Mich., Dec. 30.—Prof. Victor
C. Vaughn of the Michigan university
made a vigorous attack on college ath-
letics at the meeting of the State
Teachers' association. He declared that
the life of the average college athletic
is very short, death ensuing before
middle life, the athletic falling a victim
to either heart or kidney disease.
Football was condemned as brutal and
its prohibition urged.

Corrigan May Get Red Hat.

Rome, Dec. 30.—The statements pub-
lished in the United States of the pos-
sibility of the elevation of Archbishop
Corrigan to the cardinalate are pro-
nounced by the vatican authorities to
be pure guess work, and nothing will
be known definitely on the subject until
the next consistory, which takes
place at Easter.

Three Thousand Chinamen Drowned.

San Francisco, Cal., Dec. 30.—The
steamer Peru brings news of a severe
famine in western China. The in-
habitants are dying by scores from
starvation, and a large portion of the
city of Chuan Tung, on a bluff at the
bend of the Kinsha river, was carried
under the flood by a landslide and 3,000
of the starving Chinese were drowned.

Lynching May Follow a Murder.

Man, Mo., Dec. 30.—Newton Widner
shot and instantly killed his brother-
in-law at Newton, in the northwestern
part of this county, Monday evening,
thus ending an old family feud. Widner
is in jail at Princeton. Lynching is
feared.

Big Failure in West Virginia.

Parkersburg, W. Va., Dec. 30.—Isaac
Prager & Sons, a retail dry goods firm
of long standing, assigned Tuesday to
Henry Keller. Estimated liabilities are
\$100,000, assets about the same. Press-
ure of Cincinnati creditors is the al-
leged cause.

INJUSTICE ALLEGED BY THE AMERICANS

CITIZEN SAID TO BE IMPRISONED IN MEXICO.

Strong Evidence of a Plot to Convict
Carlos A. Miller, Charged With
Murder—American Legation Will
Take Immediate Action—Many Peo-
ple Insist That He Is All Right.

San Diego, Cal., Dec. 30.—Americans
throughout Mexico are watching with
great interest the movements of the
authorities in the case of Carlos A.
Miller, an American citizen and resi-
dent of Cuajinicuilapan, state of Guer-
rero. He is in Belm prison, City of
Mexico, charged with the murder of a
Mexican engineer named Eduardo Ze-
peda at Ometepec Oct. 6. Miller
claimed from the first that the local
officers at Ometepec and in his own
town with the unpronounceable name
had conspired to bring a murder charge
against him, and encompass his ruin
and death if possible. He claims to
know the identity of the murderer, and
offers, if released under guard, to
furnish evidence of a wholesale con-
spiracy in the state of Guerrero not
only to do away with him, but to de-
fraud the government out of a large
amount.

Reputable people of the state have
forwarded to the government state-
ments setting forth that Miller is all
right and is the intended victim of
enemies in public places. Ignacia Mar-
iscal, secretary of foreign affairs, has
investigated Miller's case somewhat
and is convinced of his innocence. He
has notified the American legation to
that effect. It is possible, therefore,
that Miller will soon be released.
Meantime, on orders from President
Diaz, an investigation is going on in
the state of Guerrero unearthing scan-
dals in public offices and running down
the murderers of Engineer Zepeda.

SPAIN DENIES THE RUMOR.

United States Not to Mediate in Cuban
War.

Washington, Dec. 30.—From official
sources a denial is made of the state-
ment that the Spanish premier, Can-
ovas, has sent Secretary Olney a com-
munication accepting the mediation of
the United States on the carrying out
of a plan of autonomy for Cuba.

It is said no such letter has been
sent, nor had anything of such a na-
ture passed through the Spanish officials
here. Negotiations toward home
rule have proceeded for some months,
and the last phases of these negotia-
tions indicated an enlargement of the
home-rule laws adopted by the Span-
ish cortes last year, but not put into
execution.

These arrangements embrace the
election of the entire Cuban Congress
instead of a mixed Congress of fifteen
elected members and fifteen appointed
by the queen regent, and also a com-
plete control by Cuba of her tariff.

The latest statement regarding
Spain's intentions with respect to the
pacification of Cuba, therefore, deals
with a past phase of them, Spain hav-
ing decided on a considerably more lib-
eral scheme of reform than the old one
to which the latest publication on the
Cuban subject has reference. As yet
the negotiations with respect to the
enlarged reforms are tentative. A
draft of them has not been received at
Washington and the information on
them is of a general nature.

Man and Wife Assassinated.

Knoxville, Tenn., Dec. 30.—At 11
o'clock Monday night William W. Ley-
er and wife, poor but respected citizens
of Sevier county, living near Sevier-
ville, were shot down by two men
who broke into their home. Many seem
to think that the perpetrators of the
tragedy were some of the Haley crowd,
who recently had been prosecuted be-
fore the grand jury.

Jealousy Costs Two Lives.

Huron, S. D., Dec. 30.—Edward Rosa,
who made his home with his brother,
Cale Rosa, a ranchman near Forest
City, shot and killed his sweetheart,
Miss Mary Brehl, at the home of her
sister, Mrs. Stewart, in Forest City.
After killing the girl Rosa blew out his
own brains. They had been to a dance
Christmas. Rosa believed he was not
given proper attention by the girl.

Indiana Candidates Alert.

Indianapolis, Ind., Dec. 30.—The leg-
islature does not meet until one week
from Thursday, but the most active
supporters of the several candidates for
United States senator are coming in to
stay until the candidate shall be nomi-
nated. There is a demand that the
caucus shall be held the first week of
the season, and will probably be fixed
for Jan. 7.

Ice Blockade at St. Johns, N. F.

St. Johns, N. F., Dec. 30.—An ice
blockade on the whole of the north-
western coast of the island has begun,
and vessels are returning here, it being
impossible to reach the mining settle-
ments. All navigation will be sus-
pended for the remainder of the year.

Movement of Bog Ceases.

Dublin, Dec. 30.—The destructive
movement of the bog land at Castle
Island finally ceased Tuesday night. Two
bodies have been found a mile distant
from the scene of the disaster.

OFFICIALS ALARMED AT WASHINGTON

ANXIETY OVER VIOLATION OF NEUTRALITY LAWS.

Action of the Authorities In Florida
Causes Apprehension On the Part of
President Cleveland—Spain Said to
Be Negotiating with Olney—Weyler
Has Returned.

Washington, Dec. 30.—The President
is not satisfied with the work of federal
officers in Florida and along the south
Atlantic coast in relation to filibuster-
ing expeditions.

He was in consultation yesterday
with Secretaries Olney and Carlisle, and
it is expected that some more positive
orders will be given to the federal of-
ficers who are expected to enforce the
neutrality laws.

It is strongly suspected that the offi-
cials in Florida are influenced by local
sentiment and are not anxious to op-
pose the Cubans. Though two naval
vessels and four or five revenue cut-
ters are stationed in southern waters
solely to prevent filibustering, the
number of successful expeditions is
steadily increasing.

There was much telegraphing be-
tween Secretary Carlisle and the revenue
officers in Florida and the subject of
the correspondence was the lax en-
forcement of the neutrality laws. The
fact that filibusters when arrested and
given a jury trial are generally sure of
acquittal in a state like Florida, where
practically every man is a Cuban sym-
pathizer, has also been discussed by the
administration officials.

It is feared that Spain may bring ac-
tion for damages on account of these
expeditions, and will be able to show
that local sympathy controlled the
Florida courts to such an extent that
the trials were farces.

The President will probably not issue
another proclamation warning citizens
against filibustering. He had already
issued two, neither of which has served
its purpose. Another, he believes would
be equally ineffectual.

Spain Denies the Rumor.

London, Dec. 30.—The Daily News'
Paris correspondent says: "It is quite
clear that Spain is negotiating with Mr.
Olney, but the Castilian pride compels
the government to negotiate in an un-
derhand way. They cannot help try-
ing to arrive at a private understand-
ing with the United States, for the pro-
ceeds of the recent loan are nearly ex-
hausted and Captain General Weyler's
apparent inaction has checked the
buoyancy which followed Maceo's
death."

Weyler Returning to Havana.

Los Palacios, Dec. 29, via Havana,
Dec. 30.—General Weyler is on his way
back to Havana, via Santo Domingo,
San Cristobal, Candelaria, Artemisa
and probably Guanajay.

Acting Against Convict Labor.

Chicago, Dec. 30.—Organized labor
has combined with state manufacturers
to secure a legislative enactment to
protect free labor in Illinois. At a con-
ference at the Sherman house yester-
day the grievance of wage-earners
formed the basis for prompt action.
A committee to prepare a legislative
bill to be officially endorsed by trades
unionists and manufacturers was
named.

Engines Will Not Frighten Rock County Stock—Fairfield House Destroyed By Fire—Lecture Course Begins At Footville—Some Other County News.

The Chicago & Lake Superior rail way was sold at Cambridge under order of Judge Siebecker, of the circuit court, and "the new rail road" that was to "run through Rock county", will not materialize. The purchasers are George Dow, of Cambridge, and Henry Hermann, of Milwaukee, and the price was \$3,500. Work on the road was begun in September, 1895. T. G. Norton, of Madison, and E. J. Foster, of Oconomowoc, being the principal promoters. The village of Cambridge agreed to subscribe for \$5,000 worth of stock and a bonus of \$2,000 was furnished by private subscription. A condition of both subscriptions was that the road should be in operation by Jan. 1, 1896. About three miles of the road were built and an engine was run over the track on Christmas day, 1895. The subscribers of stock refuses to pay over the money on the ground that the conditions of the road being in running operation had not been complied with. Contractor Welt was unable to pay the workmen, and they began proceedings to foreclose mechanics' liens. Liens were also secured by the contractor and the men who furnished the material for the construction of the road. Judge Siebecker ordered the sale of the road to satisfy the first lien of \$3,650, for a sum not less than that amount.

FIRE RAGES AT FAIRFIELD.

House Owned By Ira Enders Goes Up In Smoke.

Fairfield, Dec. 29—Late last Tuesday evening fire destroyed a tenant house owned by Ira Enders and occupied by Jerome Terwilliger. Considerable property which was saved from the fire two months ago was destroyed by a blaze. Mr. Terwilliger is having experience with fire than is enjoyable. The family have taken possession of E. G. Cheebo's new tenant house. There is talk of organizing a singing class in the Hollister school house with Mr. Gage of Richmond, as leader. Hunters are on the lookout for wolves which have been feasting on the flock of sheep. Dr. R. J. C. Serl of Johnstown Center, is well of Johnstown instead of the Stephen Serl, as stated in the last Delavan doctor. Williams came out to Miss Mary last spelling contest, to be won by Mr. Hobbs conducted Rev. C. A. Hobbs in the Hay interest school last Sunday evening. Prayers are to be held in the neighborhood. Mr. Abner C. Neigh has the first one on Tuesday evening of this week. Mrs. Addie Canning erected a fine monument to her late husband, Mr. Fletcher and three daughters of I. town, spent last week at Johnstown. There has been a member on the sick list of amot them are Mrs. J. Dykeman, Mrs. Serl, little Lizzie Cutler, Mrs. J. Dykeman and several who have been suffering from severe colds. There were several very pleasant reunions on Christmas day.

THE NEWS OF FOOTVILLE.

Lecture Course Is Begun at the Church—Other Items.

Footville, Dec. 30—The first lecture course of five was held at the M. E. church Monday evening, and was well attended, considering the inclemency of the weather. Rev. Wilcox, D. D., of Lafayette, Ind., delivered an able lecture on "What Constitutes a Man." Born, to Mr. and Mrs. F. W. Snyder, December 23, an eight pound boy. Fred wears an 8x12 grin. Congratulations are in order. Mr. and Mrs. Webb Owen and family spent Christmas with Mrs. Owen's parents at Janesville. John Dann came home to eat Christmas dinner with his parents, Mr. and Mrs. T. J. Dann. Barnard & Wilder, of Evansville, will open up the big warehouse here next Monday, with thirty-five or forty tobacco sorters. Miss Maggie Howe is home for a short visit. Santa Claus paid us all a visit and left valuable presents with some of our friends. A 7 o'clock tea was given at the home of Mr. and Mrs. J. C. Owen, in honor of their daughter, Miss Louise. M. F. Murphy, of St. Paul, spent Christmas with his brother, John Murphy, and returned to work on Monday. Don't forget the social at I. U. Fisher's, Thursday, December 31. Refreshments will be served. Come and have a good time, and watch the old year out and the New Year in. Mr. and Mrs. Frank Owen entertained relatives from abroad. George Dorr, of Center is seen occasionally on our streets. Levi Ross will return to school work at Janesville next Monday. His friend, Ray Owen will accompany him. Mr. Henry has gone home to spend his vacation. John Murphy's horses became unmanageable and ran away last Thursday with no serious damage. Charles Ballard, of Iowa, is visiting his cousins, Glyde and Clarence Polbridge.

Barker's Corners News.

Barker's Corners, December 29—Mr. and Mrs. Glenn of Janesville, spent Sunday with Mrs. Cross, and also attended church here. Elsie Taylor and Ezra Dutton are in school, at Milton college. Ernest Taylor, who

has been sick, is improving. Edna McCulloch and Lizzie Hodge are also on the sick list. All officers of the Y. P. S. C. E. of the year 1896, will please be present next Sunday night and give in their reports. Ella Guernsey is spending her vacation in Rock Prairie. Joe Mason and wife, of Beloit, spent Christmas with their mother Mrs. Wm. Hodge. The Y. P. C. U. elected officers for the coming year as follows: President, Geo. Griffey; vice president, Jasper Dutton; secretary, Hattie Dutton; corresponding secretary, Georgie Cross; treasurer, Rev. L. L. Thayer; watch word agent, Ernest Taylor; organist, Mrs. Wm. Cox.

Johnstown Center Gossip. Johnstown Center, Dec. 29—The M. W. A. camp of Millard will give a dramatic entertainment at Franklin hall, Saturday evening, January 2. Miss Gertrude Rockwell, of Chicago, and Miss Rockwell, of Madison, are spending the holidays at William Rockwell's. Mr. and Mrs. Walter Lamb welcomed a baby boy to their home, Friday, December 25. Will Mawhinney is visiting at the home of his parents, Mr. and Mrs. George Mawhinney. George and Bert Austin came home from Madison to spend Christmas. The Christmas exercises at the church were well attended.

WISCONSIN PHARMACAL COMPANY Plans Agreed Upon for the Factory In Milwaukee.

A large number of druggists from different parts of the state gathered at the Merchants and Manufacturers' association rooms at Milwaukee yesterday afternoon, it being a stockholders' meeting of the Wisconsin Pharmacal company to make final arrangements for beginning work. Over six hundred stockholders were represented and all seemed confident of the success of the undertaking. The factory will be located in that city. A trade mark was adopted at the meeting. The active management of the company for the present will be in the hands of the directors. Secretary Heimstreet will also give his personal attention to the work for the next four months, and will probably be in Milwaukee most of the time. The manager of the manufacturing department will be E. G. Raeser of Milwaukee, a graduate of the Pharmacy department of the Wisconsin university.

FLINT IS DOING A BIG BUSINESS Hypnotist is Now at Peoria—Manager Meacham Runs a School.

Herbert Flint the well known hypnotist, is once more a married man. He was at Peoria last week, and when Manager Wm. H. Stoddard saw him he was doing a big business. He and the Schiller Vaudeville company had pooled issues, the Vaudeville company putting on five turns and Flint filling out the rest of the evening. He had several new demonstrations, one being a circus in which the ring master, the clown, the living pictures and the Texas mule all figure. The house was packed every night. Flint's daughter has developed into a very skillful performer, and his wife assists him in his work.

L. F. Meacham who was Flint's manager, and had a half interest in the show for years, is now running on his own hook. Flint made up his mind that he could manage his own business and Meacham, who had saved considerable money, opened a school of hypnosis in Peoria and has a large

THE OVERFLOW OF LOCAL NEWS.

EXPLORED HIS TOE WITH X-RAYS

Dr. Ralph H. Wheeler Uses the New Electrical Discovery to Good Effect.

Dr. Ralph H. Wheeler, formerly of this city, has attracted attention in Chicago, by his skillful use of the X-rays in surgical work. He used the rays a day or two ago, to locate a minute portion of a needle imbedded in a man's foot, which had for weeks escaped detection by ordinary methods.

Charles Harding, a resident of Woodlawn Park, in going about his house one night some time ago, stepped on a needle cushion, a number of the needles penetrating his foot. Unable to ascertain whether any had broken off in his foot, he called a physician who, after a careful examination, assured Mr. Harding no part of the needles remained in his foot.

Nevertheless, the foot became swollen and greatly inflamed. When the foot had become so sore he could not walk, Mr. Harding drove over to Mr. Barton, of the Central Electric company, who with the use of the fluoroscope and X-ray, located a fragment of a needle near the joint of the big toe in the left foot. He was called Dr. Wheeler, who took the patient to his office and removed the imbedded needle, being assisted by Dr. Diagras. Having definitely located the fragment by the X-ray and fluoroscope, the doctors were enabled to operate without shro or form or other anesthesia, but with incisions locally and removed the needle without pain or danger.

Home Seekers' Excursions.

FREE TO EVERY MAN

THE METHOD OF A GREAT TREATMENT FOR WEAKNESS OF MEN.

WHICH CURED HIM AFTER EVERYTHING ELSE FAILED.

Painful diseases are bad enough, but when a man is slowly wasting away from chronic weakness, the mental torments are ten times worse than the most severe pain. There is no let up to the mental suffering day or night. Sleep is almost impossible and in such a strain men are scarcely responsible for what they do. For years we have tried to find a cure for the troubled sea of sexual weakness, and based on the trouble of sex what we have done is to raise a question whether he had not better take a dose of poison and thus end all his troubles. But prudential inspiration came to his aid in the shape of a combination of medicines that not only completely restored the general health but enlarged his peak, emanated parts to natural size and vigor. In no time did he feel well again and will take the trouble to send his name and address may have the method of this wonderful treatment free. Now when I say free I mean absolutely without cost, because I want every weakened man to get the benefit of my experience.

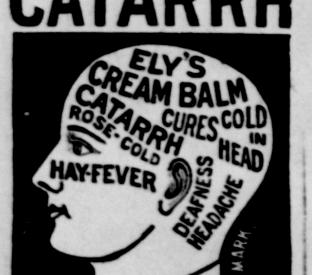

I am not a philanthropist, nor do I pose as an enthusiast, but there are thousands of men suffering the mental tortures of weakened manhood who would be cured at once could they but get such a remedy as the one that cured me. Do not try to study out how I can afford to pay the expense of sending my address, because that there are a few things on earth that although they cost nothing to get they are worth a fortune to some men and mean a lifetime of happiness to most of us. ENGLAND'S SEAL.

It is Great in Size as Well as in Name.

Many people doubtless know that upon the accession of a new monarch to the throne of England a new seal is struck, and the old one is cut into four pieces and deposited in the tower of London. In former times the fragments of these great seals were distributed among certain poor people of religious houses. When her majesty Queen Victoria ascended the throne of England, the late Benjamin Wyon, R. A., the chief engraver of her majesty's mint, designed the beautiful seal of the present great seal of England.

The details of the design are: Obverse, an equestrian figure of the queen, attended by a page, her majesty wearing over a habit a flowing and sumptuous robe, and a collar of the Order of the Garter. In her right hand she bears the scepter, and on her head is placed a regal tiara. The attendant page, with his bonnet in his hand, looks up to the queen, who is gracefully restraining the impatient charger, which is richly decorated with plumes and trappings. The legend, "Victoriae Gratia Britanniarum Regina, Fidelis Defensor," is engraved in Gothic letters, the spaces between the words being filled with heraldic roses. The reverse side of the seal shows the queen, royally robed and crowned, holding in her right hand the scepter, and in her left the orb, seated upon a throne beneath a niched Gothic canopy; on each side is a figure of Justice and Religion, and in the exergue the royal arms and crown, and the whole encircled by a wreath or border of oak and roses.

The seal itself is a silver mold in two parts, technically called a pair of dies. When an impression is to be taken or cast the parts are closed to receive the melted wax, which is poured in, so that when the hard impression is taken from the dies the ribbon or parchment is neatly affixed to it. The impression of the seal is six inches in diameter and three-fourths of an inch in thickness.—Harper's Round Table.

THE RIBBON SASH.

It Will Be Seen on Street Gowns as Well as on Evening Ones.

The wide ribbon sash is to be worn generally again this autumn, and our modistes have arranged that they shall be a part of the street costumes no less than for evening gowns. A number of new features, however, will be introduced. Hand-painted sashes and sashes with fringed ends will be seen, also those having the ends finished with an edging of feathers. Many debutantes will wear with their party gowns sashes of filmy tulle. These sashes, when tied in a big butterfly bow at the back, will give a delightfully airy touch to a costume. One way of wearing the sash will be to have it form part of the bodice, being tied in a bow on the left shoulder. Another new way is to let it start from the back and be drawn over the corsage, much like a very short bolero. Right in front it lies in a bow, with full loops and long ends. When the sash is worn around the waist it is very broad in front, tying at the back in small loops, with long ends. This is one of the favorite ways in which the sash is worn in Paris. Colors which promise to be most in favor are the new red shades. A cherry pink is one of the latest exquisite colors, also a soft, brownish cherry. Any of the new red shades in the changeable glace ribbon, with the black edge, are most effective. Also all the varying tints of violet and mauve will be fashionable. For street costumes the newest sash is of black satin, about eight inches wide. It looks much like a corset in front, fastening with two small bows. In the back it fits the figure, and is trimmed with two rows of buttons, which give it the appearance of fastening by means of the buttons. This corset sash is high in favor with French couturieres. —Philadelphia Times.

Disapproves of Dueling.

Old Grand Duke Charles of Saxe-Weimar, brother-in-law of the late Emperor William, and granduncle therefore of the young Kaiser, is entirely at variance with the latter on the subject of dueling, an institution of which he disapproves in the most pronounced manner. The other day, when dining at the mess of the Prussian cavalry regiment that bears his name, and of which he is the honorary chief, his attention was attracted to an officer whose face was covered with scars of sword cuts.

"How many times have you been on the field?" inquired the aged grand duke. "Sixteen times," was the response of the captain, and it was given with a certain amount of swagger.

"What a much better use you might have made of your time," retorted the prince, and with the exclamation of "What a fool!" he turned his back upon the officer, who remained literally open-mouthed with astonishment.

Had to Apply Elsewhere.

"Jones, old boy, I've left my pocket book at home again."

"Forget it!"

"No; but there's such a lot of impudent fellows always wanting to borrow. Let me have a dollar until I see you again."

"Too bad. I left my pocketbook at home for the same reason."

NEW YORK AND JOHN C. SPOONER.

Republicans in other states pay tribute to John C. Spooner in a way very

gratifying to Wisconsin. The New

York Mail and Express sums up east-

ern sentiment by saying:

"When it became known that the

Wisconsin legislature had become

strongly republican, the question of the

succession to Senator Vilas became at

once a topic of lively discussion. Every

newspaper in the state took it up, each expressing the local sentiment of

the community, and it is a remarkable

compliment to ex-Senator John C.

Spooner that with practical unanimity

the republican press of the state have

decided that he should again be chosen to the senate. The sentiment of

the members of the legislature coincides with that expressed in the local

papers, and is believed that Mr.

Spooner will be chosen by acclama-

tion.

CITY OWES NOTHING TO JOHN W. HOGAN

HE HAS NO MORTGAGE ON
THE TOWN

Has Been Paid For All He Did—Work
Against Republicans While Drawing
Salary They Voted to Him.
There Are No Traitors Among the
Republican Aldermen.

John W. Hogan's "mortgage on the
city of Janesville" has expired by limitation.

He can now collect just what is due
him, and no more. The day when
"Hogan was the whole thing" has
passed.

He is an active and aggressive politi-
cian, he has made his bed with the
politicians, and with them he must lie.

The Recorder waxes frantic on the
subject of John W. Hogan.

Why?

Because he is a democrat—nothing
else.

The four democratic aldermen are
solid for him.

Why?

Because he is a democrat—nothing
else.

None of these democrats can truth-
fully say that John W. Hogan will
make a better marshal than W. H.
Appleby.

But they are for Hogan, first last
and all the time.

Why?

Just because he is a democrat.

They say "they think he ought to
have the place," but they do not add
"because he is a democrat," although
that is the controlling reason.

People Take Care of Him.

John W. Hogan has been taken care
of by the people of Janesville for sev-
enteen years. He has been thrifty.
When he worked for \$50 a month he
prospered. The wolf is not scratch-
ing at his door now—thanks to the
people of the city of Janesville.

The city of Janesville now pays him
\$90 a month. John Brown, an equally
efficient officer, who began police work
under Marshal Alex. Russell, gets but
\$60. John Brown is a republican, but
he has not made himself obnoxious.

He has not crammed his political be-
liefs down the throats of the people
who hire him. He has attended to his
own business, and has made an ideal
officer. Hence, his political views in
no way influence his position. He is
a good man for the place, and is hold-
ing it for that reason. A democratic
mayor has appointed him, as demo-
cratic mayors have appointed him be-
fore—because he is an efficient officer
who attends to his own business, and
lets other people do the same.

Caused His Own Trouble

With John W. Hogan, the con-
ditions are different. He was appointed
a member of the police force by a re-
publican mayor, but his party services
did not cease when he assumed a mu-
nicipal position. He has always been
an ardent campaigner. Last fall he

brought this trouble on his own head,
by taking an active part in politics.
He was not backward at all in telling
people of the advantages of free silver
and many people condemned him for
it. He mixed politics with his busi-
ness in a liberal manner and made
himself disliked therefor. Then, he
thought, it was all right to mix
politics with police work. Now,
when the seed he sowed himself is
ripe and is ready for the harvest, he
holds up his hands in holy horror and
says "the police department should
be divorced from politics."

John W. Hogan has sowed to the
winds and is reaping the whirlwind.
It is his own fault. He forced people
to recognize his political failings and
for him to ask for republican support
now, is effrontery to the republicans
whom he has opposed, tooth and nail,
ever since he cast his first ballot.

People Owe Him No Favors

There are no favors due John W.
Hogan from the citizens of Janes-
ville. He has been well paid for all
he has done and will be well paid for
all he will do.

That he is an efficient officer is ad-
mitted but for him to ask favors of re-
publicans after his years of active
work against them, is preposterous.

Members of the police force should
not be appointed because of any
political preference. They should
hold their position as long as they are
competent. But with the chief
police it is different in this case.

If Officer Hogan had kept out of
politics he would not be opposed by
republicans as such opposition has
never been apparent before.

The chief of police is the
head of a city department. It
is no place for a politician. John W.
Hogan is a politician by choice. He
seems to think that as a city employe
he can do all the wire pulling that he
wants to for his democratic friends,
yet no citizen can have the hardihood
to criticize him. In plain English, he
seems to think that while the people
can expect nothing from him except
what he has a mind to give them; he,
in turn, is entitled to anything that
he asks of the people.

Aldermen Not Traitors.

The republican common council will
now clip his wings. If John W. Hogan
owns this city, he can appoint
himself chief of police. If he does not
own the people, the people will name
their own chief of police.

No republican alderman can vote for
John W. Hogan. Party duty will com-
pel them to vote against him. The

Gazette does not believe that there are
traitors in the republican camp. There-
fore, it confidently predicts the elec-
tion of W. H. Appleby as chief of
police, and hopes that his chief
will be John W. Hogan and John

Brown.

While many people insist that Of-

ficer Hogan should be removed from
the force because of "offensive partis-
anship," and some man who will not
mix politics with his work, be named
as his successor, there are others who
think he should retain his present po-
sition with the understanding that
political offensiveness is responsible
for his failure to be advanced. It is
about time the republicans of the city
of Janesville turned on this man who
has always opposed them while draw-
ing the salary they voted to him.

Teach him a lesson now, when the ef-
ficiency of his opponent insures that

the lesson shall not be taught at the
expense of the efficiency of the depart-
ment.

This is the party duty of the alder-
men—and there are no Benedict Ar-
nolds among them.

Citizens Plan to Raise Money to
Build a New Power House—Mr.
Blabon Wants Supt. Cummins to
Stay—The Latter Recommends Im-
provements and Extensions.

A movement is now on foot to raise
money by popular subscription to
build a new power house for the
street railway company, and present
it to Mr. Blabon.

The move is being planned by citi-
zens who are interested in keeping the
line in operation, and it is said that a
committee will begin an active can-
vass soon.

Several contributions have been of-
fered so far.

The insurance adjusters have decid-
ed that the power house building is a
total loss, and will pay the policy in
full. They did not, however, feel
qualified to pass upon the matter of
the damage to the machinery, and
other adjusters will come here to ar-
range that part of it.

Superintendent Cummins has appointed Captain
Pliny Norcross to act as expert in be-
half of the company.

The fact that the line is not to be
abandoned if Janesville people want it
to run, is shown by the letter received
by Supt. Cummins today. In this letter
Mr. Blabon asked Supt. Cummins to
reconsider his resignation and re-
main in Janesville, thus indicating
that he intended to resume business
if possible. Mr. Blabon has listened
to the advice of Mr. Cummins hereto-
fore, as he recognizes in him a thor-
oughly competent manager.

Cummins Recommends Changes.

This fact may tend to help Janes-
ville, and improve the line, as Mr.
Cummins has confidence in this
city and tells Mr. Blabon so.

His answer to Mr. Blabon's proposi-
tion to remain in Janesville will be
along this line. He will tell Mr.
Blabon that if the line is equipped
with new and adequate motive power,
more and better cars, and the line
placed on a basis where it will pay,
he will stay here. People who have
claimed to know, have said that ex-
tensions of the line had been con-
templated for some time. Therefore
they are inclined to think that Mr.
Blabon will accept Mr. Cummins' pro-
position to remain and invest some more
money to protect what he now has in-
vested in the line.

One extension, in particular, is said
to be favored, and while the expense
would be comparatively small, the re-
venue therefrom would be quite large, it
is said.

In case a new power house is built
it would not be located on the present
site, but at some place better adapted
to the uses required.

The committee of citizens have been casting about
for a suitable location today.

THEY PLAN TO REORGANIZE.

Changes Planned in Odd Fellows Insurance
Future.

A meeting of the officers of the Wis-
consin Odd Fellows' Mutual Life In-
surance company was held at Milwau-
kee, at which it was decided to re-
organize the company. In order to do
this it is proposed to ask the legisla-
ture at its coming session to amend
the charter in several ways. One of
these is to allow them to increase the
assessments. The suits against the
delinquents are to be pushed, and it is
hoped in this manner to collect nearly

\$100,000 claimed to be due the com-
pany, with which to meet about \$60,000
which the company owes in death
claims.

JUSTICE and Mrs. W. R. Phillips and

EFFECT OF MUZZLES.

Their Enforced Use Has Changed the Breed of London Dogs.

The muzzling order has now been so long in operation that one is liable to see its practical results, at all events so far as London is concerned. They are really very remarkable, especially from a point of view not likely to be immediately taken. The supremacy of the fox terrier is gone. One misses the little, vivid white spots that moved about so quickly and made streets and thoroughfares gay, and, it must be admitted, noisy. Most of these dogs were mongrels, and, being of no appreciable value, and probably of no clearly defined ownership, they passed quickly in a wholesale way into the lethal chambers. London is rid of them, but at all our towns, the white terrier with the odd markings is still in the ascendant. On the other hand, here in town we have the Irish and the Scotch. These are as yet pretty pure; they keep rather to themselves, after the manner of the provincials, but in a couple of years mongrelism will assert itself, and London will be overrun. As it is, the hardy little Aberdeen, with his long body, short legs and nondescript markings of black and gray and mustard, holds the street, and the Irish terrier loaf about, social and easy-going. They are both excellent in their way, but, for all that, one misses the sharp, quick vitality of the fox terrier. Even as a mongrel he seemed to concentrate in his active little body all doggy qualities, especially fidelity and hatred of cats.—London News.

The King of Stars.

The great star Arcturus, which shines in the farthest heavens, rushes through space at the rate of 197,000 miles an hour, or 4,728,000 miles a day. Just think of that! How far do you think this star is away from the earth? Only 1,069,500,000,000,000,000 miles—an inconceivable distance. We see it in the heavens because its size is so immense, for it is no less than 551,000 times greater than the sun. It gives out seven thousand times as much heat as the sun. If the earth could be moved through space toward Arcturus, the spectacle that would be presented to its inhabitants as they approached that great star would be of indescribable magnificence. When we had arrived within something less than 8,000,000 miles, its light and heat would be equal to that which we get from our sun at a distance of only 93,000 miles. When we approached it as close as Neptune, the intensity of its heat would begin to be unbearable. At the distance of Jupiter it would smite the earth with the resistless energy of its radiation. The forests would burn, the oceans rise from their beds in vapor, the ground would smoke, and, before we could approach as close as the earth is to the sun, the whole of our globe would be melted and dissipated in steam! Truly, Arcturus is king among stars, and our sun, great and brilliant as it is, if dropped into the blazing photosphere of that great planet, would be instantly swallowed up, and the only visible evidence of its fate would be a sudden flash. If a devil fish had been born at the same date as Julius Caesar, June 12, 100 B. C., with a tentacle 1,069,500,000,000 miles long, and on the day of its birth had placed one claw upon the fervid surface of Arcturus, it would require the lapse of several thousand years beyond the present date before the creature's consciousness—upon the supposition that sensation travels with the same speed as light, 186,000 miles per second. This means also that the little twinkle of light which Arcturus gives out when we look at it left the star many thousands of years ago.

Of course the figures bewilder one, but, as far as they can be, they have been proved correct.

Sunbeam in Love.
Naughty Cupid, little mischief,
Tired of wounding human hearts,
Took one day a golden arrow,
Fashioned by his dainty arts—
Shot it straight into a sunbeam,
Speeding through the balmy air,
Would the sunbeam love and suffer—
Not a bit did Cupid care.

To the sunbeam, rising early,
Came a glad and sweet surprise,
For a moonbeam, faintly glowing,
Passed before his ardent eyes.
Then the sunbeam kissed the moonbeam,
But the moonbeam fled away,
And the sunbeam, fast pursuing,
Vainly sought her all the day.

In the evening went the sunbeam,
Wearied to a willing rest;
He had sought the round earth over,
In the ardor of his quest.
Though his search had been unfruitful,
And unsatisfied his love,
Yet the world was bright and smiling,
Gladdened as he passed above.

Mother Goose.

Mother Goose was a real character, and not an imaginary personage, as some people suppose. Her maiden name was Elizabeth Foster, and she was born in the year 1665 in the colony of Massachusetts Bay. She married Isaac Goose in the year 1683, and few years later became a member of the Old South church, Boston. The first edition of her melodies (which were originally sung to her grandchildren) was published in Boston in 1716 by her son-in-law, Thomas Fleet. Mother Goose died in 1757.

How To Prevent Pneumonia.
At this time of the year a cold is very easily contracted, and if left to run its course without the aid of some reliable cough medicine is liable to result in that dread disease, pneumonia. We know of no better remedy to cure a cough or cold than Chamberlain's Cough Remedy. We have used it quite extensively and it has always given entire satisfaction.—Olagah, Ind. Ter. Chief.

This is the only remedy that is known to be a certain preventive of pneumonia. Among the many thousands who have used it for colds and a gripe, we have never yet learned of a single case having resulted in pneumonia. Persons who have weak lungs or have reason to fear an attack of pneumonia, should keep the remedy at hand. The 25 and 50 cent sizes for sale at C. D. Stevens' pharmacy, corner Main and Milwaukee streets.

Don't be persuaded into buying liniments without reputation or merit—Chamberlain's Pain Balm costs no more, and its merits have been proven by a test of many years. Such letters as the following, from L. G. Bagley, Huachuca, Cal., are constantly being received: 'The best remedy for pain I have ever used is Chamberlain's Pain Balm, and I say so after having used it in my family for several years.' It cures rheumatism, lame back, sprains and swellings.

DR. LOUIS DERDINGER,
Oculist and Optician,
WILL BE AT THE GRAND HOTEL, JANESEVILLE, Jan. 6

Returning one day every month thereafter. Dr. Louis Derdinger, founder of the Masonic Temple Optical Institute, Chicago; proprietor of the Great Optical Health and Beauty Center, former Resort of Wisconsin Dells; president and consulting oculist optician of the Wisconsin Optical Institute, Oshkosh, will give consultation, examination and advice free at his offices.

Dr. Derdinger has made regular visits to the same established offices in Wisconsin for years, and has demonstrated the fact to the medical profession and to the people, that he straightens cataracts without an operation, restores the sight in the most complicated cases of distorted and defective vision, cures chronic eye diseases, headache, nervousness, blinking, frowning, sore, weak, painful eyes, drooping, inflamed eye lids, itchy, smarting, red eyes, seum or floating specks before the eyes, tired, sleepy feeling and muscular insufficiency causing St. Vitus dance, dizzy fainting spells, nausea, sleeplessness, and neuralgia in any part of the body, with his combination, prismatic, sphero-cylindrical glasses scientifically fitted to the visual centers and all meridians of the eye.

Thousands of prominent people in this state testify to his professional ability, integrity and skill in his work. Numerous recommendations and testimonial letters can be seen on file at Dr. Derdinger's office from physicians, statesmen, school superintendents, engineers, bankers, lawyers, and from many prominent ladies who are well known in society.
